SUMMARY

Enthusiastic developer with strong skills in C/C++, Python, web development, ML libraries. Experienced in database management, and cloud technologies with a keen interest in machine learning. Excellent problem solving, research, and collaboration abilities. Seeking opportunities to build impactful technical solutions.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, Javascript, MATLAB

Frameworks: TensorFlow, Flask

Libraries & Tools: NumPy, Pandas, Scikit-learn, matplotlib

PROJECTS

Collaboration platform

Sep 2024

Web development project

HTML, CSS, Javascript, Flask

- Developed intuitive front-end creating reusable UI components for real-time collaboration features.
- Ensured scalability by designing modular, maintainable code, adhering to modern UX patterns for enhanced user experience.
- Led implementation of best practices for cross-browser compatibility and responsive design.

Hospital Resource Management Platform

Apr 2025

Machine Learning Project

JavaScript, React, Node.js, Express.js, Python.

- Implemented Logistic regression to predict No Show appointments
- Reinforcement Learning for resource allocation
- Designed a user friendly interface with admin and client modules for seamless platform management.

EDUCATION

VIT Bhopal University

Sehore, MP

Bachelor of Technology in Computer Science and Engineering

Sep 2023 – May 2027

Dr. Jagannath Mishra College

Muzaffarpur, Bihar

Intermediate (Class XII)

May 2020 – Apr 2022

Disha Delphi Public School

Kota, Rajasthan

Matriculation (Class X)

Apr 2019 – Apr 2020

CERTIFICATIONS

- NPTEL Certification in Cloud Computing
- Deloitte Australia Data Analytics Job Simulation on Forage
- Deloitte Australia Technology Job Simulation on Forage
